

Miami-Dade County Department of Regulatory and Economic Resources
Staff Report to Community Council No. 8

PH: Z12-006 (12-9-CZ8-2)

September 12, 2012

Item No. 2

Recommendation Summary	
Commission District	2
Applicants	Inner City Property Development and Golden Sands Development Corp.
Summary of Requests	The applicants are seeking to permit the expansion of an existing construction office and warehouse onto additional property within the MCUCD with variances to the setback, parking and landscape requirements of the urban center ordinance and the zoning regulations.
Location	2500 NW 39 Street and 2501 NW 38 Street, Miami-Dade County, Florida.
Property Size	0.98-acre
Existing Zoning	(MCUCD) Model City Urban Center District
Existing Land Use	Warehouse and offices
2015-2025 CDMP Land Use Designation	Community Urban Center (see attached Zoning Recommendation Addendum)
Comprehensive Plan Consistency	Consistent with the LUP map, and the interpretative text and policies of the CDMP
Applicable Zoning Code Section(s)	Section 33-311(A)(4)(b), Non-Use Variance standards (see attached Zoning Recommendation Addendum)
Recommendation	Approval with conditions of requests #1 through #5 and requests #7 through #9, subject to the acceptance of the proffered covenant; and denial without prejudice of request #6.

REQUESTS:

- (1) NON-USE VARIANCE of the Standard Urban Center regulations requiring a minimum 25% building frontage at the build-to line; and a minimum 8' high masonry wall along any part of the build-to line not occupied by a building; to waive same along the front (north) build-to line.
- (2) NON-USE VARIANCE of the Standard Urban Center regulations to permit the existing building setback 13' - 3" from the side street (east) property line (15' required).
- (3) NON-USE VARIANCE of the Standard Urban Center regulations to permit parking spaces within the front setback (not permitted).
- (4) NON-USE VARIANCE of the Standard Urban Center regulations requiring the front setback area to be landscaped.
- (5) NON-USE VARIANCE of the Standard Urban Center regulations requiring a 8' wide continuous landscape strip, 6' sidewalk with 2' curb and gutter.
- (6) NON-USE VARIANCE of the Standard Urban Center regulations to permit the existing barbed wire on top of an existing chain link fence (barbed wire not permitted)

- (7) NON-USE VARIANCE of parking regulations to permit 29 parking spaces (39 parking spaces required).
- (8) NON-USE VARIANCE to permit parking spaces to back out into the right-of-way of NW 39 Street (not permitted).
- (9) NON-USE VARIANCE of zoning regulations requiring that no fence or wall exceed 2.5' in height when located within the safe-site distance triangle within 10' of the edge of a driveway leading to a public right-of-way; to waive same to permit an existing rolling gate and 8' high chain link fence within the safe-site distance triangle along the side street (NW 25 Ave).

Plans are on file and may be examined in the Department of Regulatory and Economic Resources entitled "Warehouse Addition For Golden Sands " as prepared by Ensenat Cohen Architect P.A. sheets A.01 and A.02 dated stamped received June 15, 2012 and the remaining sheets dated stamped received January 31, 2011 for a total five (5) sheets.

PROJECT DESCRIPTION:

The submitted plans depict the existing 24,622 sq. ft. warehouse and office building with the proposed additions with a maximum height of 27' that fronts onto both NW 38 Street and NW 38 Street.

<u>NEIGHBORHOOD CHARACTERISTICS</u>		
	Zoning and Existing Use	Land Use Designation
Subject Property	MCUCD; warehouse and office building	Community Urban Center
North	State Road #112	Transportation
South	City of Miami; warehouse	Business and Office
East	MCUCD; warehouse	Community Urban Center
West	MCUCD; warehouse	Community Urban Center

NEIGHBORHOOD COMPATIBILITY:

The 0.98-acre subject parcel contains two (2) buildings, an existing warehouse building on the south parcel abutting NW 38 Street and an existing office and warehouse building on the north parcel which the applicant intends to join together with a roof attachment. The subject parcel abuts an expressway to the north and other warehouse and industrial uses to the east, west and south.

SUMMARY OF THE IMPACTS:

The approval of this application will allow the applicant to expand the existing construction company and materials onto the parcel to the south fronting onto NW 38 Street which will provide the applicants with additional covered storage area. However, the approval of the subject property with the existing buildings that are setback from the required front build-to line along with other variances to the setback and parking regulations outlined in the Model City

Urban Center District (MCUCD) Ordinance within which it is located could have a negative visual impact on the surrounding area.

COMPREHENSIVE DEVELOPMENT MASTER PLAN ANALYSIS:

In October 2011, pursuant to Resolution #Z-12-11, the subject parcel was a part of a larger tract of land that was rezoned to the **Model City Urban Center District (MCUCD)**.

The Comprehensive Development Master Plan (CDMP) Land Use Plan (LUP) map designates the subject property as lying within the **MCUCD**. Urban Centers are identified as hubs for future development intensification in Miami-Dade County, around which a more compact and efficient urban structure will evolve and are intended to be moderate-to-high-intensity design-unified areas that will contain a concentration of different urban functions integrated both horizontally and vertically. Emphasis in design and development of these centers and all of their individual components have been created to promote active pedestrian environments through high-quality design of public spaces as well as private buildings; human scaled appointments, activities and amenities at street level; and connectivity of places through creation of a system of pedestrian linkages. All of the parcels within the boundaries of the approved **MCUCD** are regulated by plans and descriptive standards described in Ordinance #10-013, which are consistent with the Urban Center interpretative text. Among other things, said Ordinance requires buildings to be oriented to the street, parking lots to be predominately relegated to the rear or sides of buildings, primary building entrances to be placed close to the street and/or open space, and shade trees and weather protection to be available in order to create a pedestrian-friendly environment at street level.

The applicants seek approval of multiple non-use variances from the MCUCD and the Miami-Dade zoning regulations. The subject property consists of two (2) parcels that are located within the Edge Sub-District of the MCUCD and are designated Industrial (ID) under the MCUCD's regulating plans. The applicants' letter of intent indicates that the purpose of the application is to merge the two (2) parcels with a connecting roof structure and as such, the proposed larger tract is required to meet the MCUCD standards set forth in the regulating plans. Said regulating plans permit industrial uses such as the existing construction company offices and warehouse. Staff opines that the continued use of the merged parcel of land as a construction company office and warehouse facility in the MCUCD will be **compatible** with the surrounding uses that exist in this area and the industrial uses that are allowed in the area designated ID under the MCUCD regulating plans.

As such, approval with conditions of the proposed merger of the two (2) parcels to expand the construction office and warehouse facility within the MCUCD would be **compatible** with the industrial uses allowed and therefore **consistent** with the CDMP LUP map Urban Center designation and the Land Use Element interpretative text for Urban Centers.

ZONING ANALYSIS:

When requests #1 through #6 are analyzed under the Section 33-311(A)(4)(b), Non-Use Variance Standards, staff opines that the approval of these requests would be **compatible** with the surrounding area, the emerging MCUCD and will maintain the basic intent and purpose of the zoning district. The subject property consists of an existing construction office and warehouse building on a parcel fronting onto NW 39 Street and an existing warehouse on the

adjoining parcel that fronts onto NW 38 Street. The applicants have indicated in their letter of intent that they intend to combine the parcels by erecting a roof structure and ramp that will connect the buildings. As a result of this proposed redevelopment, the applicants seek to vary or waive certain requirements set forth in the Urban Center Standards and the MCUCD ordinances. The submitted plans depict the proposed development and the variances being requested.

The applicants' requests to waive the requirement for a 25% building frontage or a 8' high masonry wall along parts of the build-to line not occupied by a building along the front (north) build-to line (request #1), to permit the existing buildings to setback less than required from the side-street (east) property line (request #2) and to permit parking spaces in the front setback area (request #3), pertain to the standards outlined in the MCUC Ordinance to encourage buildings that would frame the adjacent street to create a public space in the street corridor that is comfortable and interesting, as well as safe for pedestrians. Additionally, the requests to vary the street parameter requirement for an 8' wide landscape strip, 6' wide sidewalk with gutter (request #4) and requiring that the front setback area be landscaped (request #5) would allow the applicants to vary the standards of said ordinance that place an emphasis on sidewalks, with width and street-edge landscaping increased where necessary to accommodate pedestrian volumes.

Although the aforementioned requests do not meet the requirement of the MCUC ordinance, staff notes that the buildings on the site existed before the ordinance and that the proposed roof connection between the buildings will be internal to the site and will not be visually intrusive to the surrounding area. Staff's research of the Miami-Dade Property Appraiser's records indicates that both buildings were constructed between 1952 and 1953 and that the surrounding area to the east, west and south are developed with similar industrial uses. As such, staff opines that this redevelopment will not create any new visual impacts on the surrounding area than what currently exists. Further, staff notes that although the existing office and warehouse building is setback an average of 5' from the front (north) build-to line than required by the MCUCD regulations, the entire building runs along this frontage of the property and frames this portion of NW 39 Street. Notwithstanding the existing parking within the front (north) setback area, staff opines that although the building was constructed since the 1950's, this uniform frontage within 5' of the build-to line, partially meets the intent of the MCUC Ordinance.

Staff notes that the applicants have made attempts to meet the requirements for the MCUC District. For example, although six (6) of the parking spaces have been and will continue to be located in the front setback area, the remaining 80% of the 29 parking spaces on the site have been located to the rear and sides of the buildings. Further, parking has been sufficiently screened with a hedge along the side street (east) and rear (south) property lines abutting the parking areas. Additionally, the applicants have met the requirement for street and lot trees, which will provide adequate screening of the existing buildings, parking areas and additions from the abutting roadways and a welcome visual enhancement to the surrounding industrial uses that were developed prior to the Ordinance for the MCUC.

However, staff is not supportive of the applicants' request to permit the existing barbed wire strands in top of the existing chain link fencing (request #6). Staff notes that the subject parcel was previously zoned IU-1, Light Industrial Manufacturing District and that the existing barbed wire was allowed. Further, staff notes that report submitted by the Miami-Dade Police Department (MDPD) indicates that there were a total of 257 incidents reported within a quarter

mile of the subject parcel between January and December 2011. Said report also indicated that within the block in which the parcel is located, there were varied incidents of robbery, commercial burglaries, auto theft, assault and narcotics investigations that were included in the aforementioned statistics. However, although staff recognizes that there is a need for some form of a security deterrent staff opines that the barbed wire fence is not aesthetically pleasing and does not meet the vision for the development of the MCUCD.

Staff therefore opines that requiring that the merger of the parcels meet all the requirements of the MCUC Ordinance which would allow the expansion of the uses onto the adjoining parcel located to the south would be difficult due to the physical constraints of the parcel. Additionally, staff opines that the proposed development and the approval of the waivers to the Standard Urban Center regulations and the MCUC Ordinance being sought by the applicants would be **compatible** with the surrounding industrial developments that have been in existence prior to the Ordinance for the creation of the MCUC. Therefore, in staff's opinion, approval of requests #1 through #5 would not be out of character with the planned development of the area under the MCUC guidelines and would allow this community to be developed as envisioned. Staff opines that these requests will maintain the basic intent and purpose of the MCUC zoning regulations which were adopted by the Board of County Commissioners (BCC) will be compatible with citizens' vision for the development of the surrounding area and will be not be detrimental to the community. However, staff is not supportive of the applicants' request to maintain the barbed wire fencing (request #6). **Therefore, staff recommends approval with conditions of request #1 through #5 and denial without prejudice of request #6 under Section 33-311(A)(4)(b) (NUV).**

When requests #7 through #9 are similarly analyzed under the Section 33-311(A)(4)(b), Non-Use Variance Standards, staff opines that approval with conditions of these requests will maintain the basic intent and purpose of the zoning, subdivision and other land use regulations and would be **compatible** with same. Staff opines that the applicants requests to allow less parking than required, to allow parking to back out into the right-of-way and to permit a rolling gate within the safe-sight distance triangle along NW 25 Avenue result from the physical restrictions of the existing buildings that were constructed since the 1950's on the 0.98-acre parcel. Staff opines that the reduced parking will not result in the spillage of parking on the right of way and further that the parcel is surrounded on three (3) sides by an approximately 8' wide asphalt parkway that could accommodate excess parking. Additionally, staff notes that the Public Works and Waste Management Department does not object to the approval of the aforementioned variances. Their memorandum indicates that the applicant has worked with them to angle the parking that will back out onto NW 39 Street to minimize the impact this may have on traffic along said roadway. Further, Staff opines that the wrought iron rolling gate and picket fence depicted in the submitted plans will provide adequate visibility for vehicles entering and leaving the property and therefore will not pose a risk to pedestrian or vehicular traffic along NW 25 Avenue. However, staff opines that the applicant should not be able to increase the available office space in the future as this will result in an increase in the number of required parking spaces, which the parcel is physically unable to accommodate. The applicant has therefore proffered a covenant that will restrict the office uses to the square footage indicated in the submitted plans.

Based on the aforementioned, staff opines that the approval with conditions of requests #7 through #9 will not have a negative visual impact on the surrounding area and would be **compatible** with same. **Staff therefore, recommends approval with conditions of requests**

#7 through #9, under the Section 33-311(A)(4)(b), Non-Use Variance standards subject to the acceptance of the proffered covenant.

ACCESS, CIRCULATION AND PARKING: N/A

NEIGHBORHOOD SERVICES PROVIDER REVIEW: See attached.

OTHER: Not applicable.

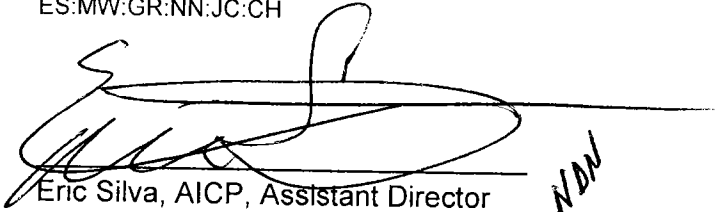

RECOMMENDATION:

Approval with conditions of requests #1 through #5 and requests #7 through #9, subject to the acceptance of the proffered covenant; and denial without prejudice of request #6.

CONDITIONS FOR APPROVAL: (For requests #1 through 5; and #7 through #9 only).

1. That a site plan be submitted to and meet with the approval of the Department of Regulatory and Economic Resources upon the submittal of an application for a building permit and/or Certificate of Use; said plan must include among other things but not be limited to, location of structure or structures, exits and entrances, drainage, walls, fences, landscaping, etc.
2. That in the approval of the plan, the same be substantially in accordance with that submitted for the hearing entitled "Warehouse Addition For Golden Sands " as prepared by Ensenat Cohen Architect P.A. sheets A.01 and A.02 dated stamped received June 15, 2012 and the remaining sheets dated stamped received January 31, 2011 for a total five (5) sheets, except as herein amended to show the removal of the barbed wire fencing. Except as may be specified by any zoning resolution applicable to the subject property, any future additions on the property which conform to Zoning Code requirements will not require further public hearing action.
3. That the use be established and maintained in accordance with the approved plan.
4. That the applicants obtain a Certificate of Use from and promptly renew the same annually with the Department of Regulatory and Economic Resources, upon compliance with all terms and conditions, the same subject to cancellation upon violation of any of the conditions.
5. That the applicants comply with all applicable conditions and requirements of the Department of Public Works and Waste Management.
6. That the applicants comply with all applicable conditions and requirements of the Environmental Resources Division of the Department of Regulatory and Economic Resources.

COMPREHENSIVE DEVELOPMENT MASTER PLAN (CDMP) OBJECTIVES, POLICIES AND INTERPRETATIVE TEXT

Urban Centers (Pg. I-46-48)	<p><i>Diversified urban centers are encouraged to become hubs for future urban development intensification in Miami-Dade County, around which a more compact and efficient urban structure will evolve. These Urban Centers are intended to be moderate- to high-intensity design-unified areas which will contain a concentration of different urban functions integrated both horizontally and vertically. Three scales of centers are planned: Regional, the largest, notably the downtown Miami central business district; Metropolitan Centers such as the evolving Dadeland area; and Community Centers which will serve localized areas. Such centers shall be characterized by physical cohesiveness, direct accessibility by mass transit service, and high quality urban design. Regional and Metropolitan Centers, as described below, should also have convenient, preferably direct, connections to a nearby expressway or major roadways to ensure a high level of countywide accessibility.</i></p> <p><i>The locations of urban centers and the mix and configuration of land uses within them are designed to encourage convenient alternatives to travel by automobile, to provide more efficient land use than recent suburban development forms, and to create identifiable "town centers" for Miami-Dade's diverse communities. These centers shall be designed to create an identity and a distinctive sense of place through unity of design and distinctively urban architectural character of new developments within them.</i></p> <p><i>The core of the centers should contain business, employment, civic, and/or high-or moderate-density residential uses, with a variety of moderate-density housing types within walking distance from the centers. Both large and small businesses are encouraged in these centers, but the Community Centers shall contain primarily moderate and smaller sized businesses which serve, and draw from, the nearby community. Design of developments and roadways within the centers will emphasize pedestrian activity, safety and comfort, as well as vehicular movement. Transit and pedestrian mobility will be increased and area wide traffic will be reduced in several ways: proximity of housing and retail uses will allow residents to walk or bike for some daily trips; provision of jobs, personal services and retailing within walking distance of transit will encourage transit use for commuting; and conveniently located retail areas will accommodate necessary shopping during the morning or evening commute or lunch hour.</i></p> <p><i>Urban Centers are identified on the LUP map by circular symbols noting the three scales of planned centers. The Plan map indicates both emerging and proposed centers. The designation of an area as an urban center indicates that governmental agencies encourage and support such development. The County will give special emphasis to providing a high level of public mass transit service to all planned urban centers. Given the high degree of accessibility as well as other urban services, the provisions of this section encourage the intensification of development at these centers over time. In addition to the Urban Center locations depicted on the Land Use Plan Map, all future rapid transit station sites and their surroundings shall, at a minimum, be developed in accordance with the Community Center</i></p>
---------------------------------------	--

ZONING RECOMMENDATION ADDENDUM

Inner City Property Development and Golden Sands Development Corp.
Z12-006

policies established below.

Following are policies for development of Urban Centers designated on the Land Use Plan (LUP) map. Where the provisions of this section authorize land uses or development intensities or densities different or greater than the underlying land use designation on the LUP map, the more liberal provisions of this section shall govern. All development and redevelopment in Urban Centers shall conform to the guidelines provided below.

Uses and Activities. Regional and Metropolitan Centers shall accommodate a concentration and variety of uses and activities which will attract large numbers of both residents and visitors while **Community-scale Urban Centers** will be planned and designed to serve a more localized community. Uses in Urban Centers may include retail trade, business, professional and financial services, restaurants, hotels, institutional, recreational, cultural and entertainment uses, moderate to high density residential uses, and well planned public spaces. Incorporation of residential uses is encouraged, and may be approved, in all centers, except where incompatible with airport or heavy industrial activities. Residential uses may be required in areas of the County and along rapid transit lines where there exists much more commercial development than residential development, and creation of employment opportunities will be emphasized in areas of the County and along rapid transit lines where there is much more residential development than employment opportunity. Emphasis in design and development of all centers and all of their individual components shall be to create active pedestrian environments through high-quality design of public spaces as well as private buildings; human scale appointments, activities and amenities at street level; and connectivity of places through creation of a system of pedestrian linkages. Existing public water bodies shall also be incorporated by design into the public spaces within the center.

Streets and Public Spaces. Urban Centers shall be developed in an urban form with a street system having open, accessible and continuous qualities of the surrounding grid system, with variation, to create community focal points and termination of vistas. The street system should have frequent connections with surrounding streets and create blocks sized and shaped to facilitate incremental building over time, buildings fronting on streets and pedestrian pathways, and squares, parks and plazas defined by the buildings around them. The street system shall be planned and designed to create public space that knits the site into the surrounding urban fabric, connecting streets and creating rational, efficient pedestrian linkages. Streets shall be designed for pedestrian mobility, interest, safety and comfort as well as vehicular mobility. The size of blocks and network of streets and pedestrian access ways shall be designed so that walking routes through the center and between destinations in the center are direct, and distances are short. Emphasis shall be placed on sidewalks, with width and street-edge landscaping increased where necessary to accommodate pedestrian volumes or to enhance safety or comfort of pedestrians on sidewalks along any high-speed roadways. Crosswalks will be provided, and all multi-lane roadways shall be fitted with protected pedestrian refuges in the center median at all significant pedestrian crossings. In addition, streets shall be provided with desirable street furniture including benches, light fixtures and bus shelters. Open spaces such as public squares and greens shall be established in urban centers to provide visual orientation and a focus of social activity. They should be located next to public streets, residential areas, and commercial uses, and should be established in these places during development and redevelopment of streets and large parcels, particularly parcels 10 acres or larger. The percentage of site area for public open spaces, including squares, greens and pedestrian promenades, shall be a minimum of 15 percent of gross development area. This public area provided outdoor, at grade will be counted toward satisfaction of requirements for other common open space. Some or all of this required open space may be provided off-site but elsewhere within the subject urban center to the extent that it would better serve the quality and functionality of the center.

Parking. Shared parking is encouraged. Reductions from standard parking requirements shall be authorized where there is a complementary mix of uses on proximate development sites, and near transit stations. Parking areas should occur predominately in mid-block, block rear and on-street locations, and not between the street and main building entrances. Parking structures should incorporate other uses at street level such as shops, galleries, offices and public uses.

ZONING RECOMMENDATION ADDENDUM

Inner City Property Development and Golden Sands Development Corp.
Z12-006

	<p>Buildings. Buildings and their landscapes shall be built to the sidewalk edge in a manner that frames the adjacent street to create a public space in the street corridor that is comfortable and interesting, as well as safe for pedestrians. Architectural elements at street level shall have a human scale, abundant windows and doors, and design variations at short intervals to create interest for the passing pedestrian. Continuous blank walls at street level are prohibited. In areas of significant pedestrian activity, weather protection should be provided by awnings, canopies, arcades and colonnades.</p>
--	--

PERTINENT ZONING REQUIREMENTS/STANDARDS

<p>33-311(A)(4)(b) Non-Use Variances From Other Than Airport Regulations</p>	<p>Upon appeal or direct application in specific cases, the Board shall hear and grant applications for non-use variances from the terms of the zoning and subdivision regulations and may grant a non-use variance upon a showing by the applicant that the non-use variance maintains the basic intent and purpose of the zoning, subdivision and other land use regulations, which is to protect the general welfare of the public, particularly as it affects the stability and appearance of the community and provided that the non-use variance will be otherwise compatible with the surrounding land uses and would not be detrimental to the community. No showing of unnecessary hardship to the land is required.</p>
<p>33-311(A)(4)(a) Use Variance.</p>	<p>The Board shall hear and grant applications for use variances from the terms of the zoning regulations as will not be contrary to the public interest, where owing to special conditions, a literal enforcement of the provisions thereof will result in unnecessary hardship, and so the spirit of the regulations shall be observed and substantial justice done; provided, that the use variance will be in harmony with the general purpose and intent of the regulation, and that the same is the minimum use variance that will permit the reasonable use of the premises. A "use variance" is a variance which permits a use of land other than which is prescribed by the zoning regulations and shall include a change in permitted density.</p>
<p>Section 33-284.89. Zoning relief from certain requirements</p>	<p>Relief from the following requirements of this article shall be permitted only pursuant to the standards and requirements of Section 33-311(A)(4)(a) of this code:</p> <ol style="list-style-type: none"> 1. Minimum and maximum densities; 2. Required liner buildings used to screen parking; 3. Colonnade regulations, including minimum horizontal and vertical clearances; 4. Provision of A streets; 5. Requirements for street trees, greens, plazas, squares and medians; 6. Maximum size of blocks; 7. Curb requirement in the Core and Center sub-district; and 8. Signage.

Memorandum

Date: February 6, 2012

To: Jack Osterholt, Interim Director
Sustainability, Planning and Economic Enhancement

From: Jose Gonzalez, P.E., Assistant Director
Permitting, Environment and Regulatory Affairs 

Subject: C-08 #Z2012000006
Golden Sands Development Corp
2500 N.W. 39th Street
To Permit Less Parking Spaces than Required by Code and to
Permit a Backout into the Right-of-Way
(IU-1) (.98 Acres)
32-53-41

The subject application has been reviewed for compliance with the requirements of Chapter 24 of the Miami-Dade County Code (the Code) and meets the minimum requirements of the Code. Accordingly, the application may be scheduled for public hearing.

Potable Water Service and Wastewater Disposal

Currently Building #2501 is connected to public water and sewer, while Building #2500 is connected to public water only. Be advised that public water and public sanitary sewers can be made available to the subject property. Therefore, connection of all the buildings in the proposed development to the public water supply system and sanitary sewer system shall be required in accordance with Code requirements.

Existing public water and sewer facilities and services meet the Level of Service (LOS) standards set forth in the Comprehensive Development Master Plan (CDMP). Furthermore, the proposed development order, if approved, will not result in a reduction in the LOS standards subject to compliance with the conditions required for this proposed development order.

Notwithstanding the foregoing, and in light of the fact that the County's sanitary sewer system has limited sewer collection, transmission, and treatment capacity, no new sewer service connections can be permitted, unless there is adequate capacity to handle the additional flows that this project would generate. Consequently, final development orders for this site may not be granted if adequate capacity in the system is not available at the point in time when the project will be contributing sewage to the system. Lack of adequate capacity in the system may require the approval of alternate means of sewage disposal. Use of an alternate means of sewage disposal may only be granted in accordance with Code requirements, and shall be an interim measure, with connection to the public sanitary sewer system required upon availability of adequate collection/transmission and treatment capacity.

Stormwater Management

The proposed change including the connecting structure between the two existing buildings will not affect the existing stormwater management system. Therefore, the Water Control has no pertinent comments.

Pollution Remediation

There are records of current petroleum contamination assessment/remediation issues on property with Folio #3031320340090 (Carbonic Industries Corp., 2501 NW 38 St., UT-2678/F-8732.) The contaminated site is in a state funded program awaiting allocation of funds for cleanup. There are no records of contamination assessment/remediation issues on the abutting properties.

Additionally, there are no historical records of contamination assessment/remediation issues regarding non-permitted sites associated with these properties or abutting these properties.

Wetlands

The subject properties do not contain wetlands as defined by Section 24-5 of the Code; therefore, a Class IV Wetland Permit will not be required.

The applicant is advised that permits from the Army Corps of Engineers (305-526-7181), the Florida Department of Environmental Protection (561-681-6600) and the South Florida Water Management District (1-800-432-2045) may be required for the proposed project. It is the applicant's responsibility to contact these agencies.

Tree Preservation

The subject properties contain tree resources. Section 24-49 of the Code provides for the preservation and protection of tree resources. A Miami-Dade County Tree Removal/Relocation Permit is required prior to the removal and/or relocation of any tree that is subject to the Tree Preservation and Protection provisions of Chapter 24 of the Code. Said permit shall meet the requirements of Sections 24-49.2 and 24-49.4 of the Code.

The applicant is required to comply with the above tree permitting requirements. Approval of the subject application is contingent upon inclusion of said tree permitting requirements in the resolution approving this application.

The applicant is advised to contact the Tree Program for additional information regarding permitting procedures and requirements prior to site development.

Enforcement History

The subject properties have one (1) open enforcement records for violations of Chapter 24 of the Code. The following is a summary of this one (1) open enforcement case associated with the subject folios:

Carbonic Ind. (UGT 2678)

In September 1988 underground storage tanks were removed from this facility. In November 1988 a Notice of Violation was issued for hydrocarbon contamination to the ground water during removal activities. In October 1989 this case was switched to the state clean-up program and in November 1991 the site was approved. Site remediation is still pending.

Please contact the Enforcement Section if you require additional information.

Concurrency Review Summary

A concurrency review has been conducted for this application and has determined that the same meets all applicable LOS standards for an initial development order, as specified in the adopted CDMP for potable water supply, wastewater disposal, and flood protection. Therefore, the application has been approved for concurrency subject to the comments and conditions contained herein.

This concurrency approval does not constitute a final concurrency statement and is valid only for this initial development order, as provided for in the adopted methodology for concurrency review. Additionally, this approval does not constitute any assurance that the LOS standards would be met by any subsequent development order applications concerning the subject property.

This memorandum shall constitute written approval as required by Chapter 24 of the Code.

If you have any questions concerning the comments or wish to discuss this matter further, please contact Christine Velazquez at (305) 372-6764.

cc: Eric Silva, Sustainability, Planning and Economic Enhancement

PUBLIC WORKS DEPARTMENT COMMENTS

Applicant's Names: INNER CITY PROPERTY DEVELOPMENT AND GOLDEN SANDS
DEVELOPMENT CORP

This Department has no objections to this application.

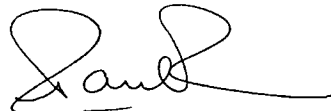

This Department has no objections to the request to permit fewer parking spaces than required.

This Department has no objections to the request to permit parking to back-out into the right-of-way. Said parking to back-out into right-of-way has been designed at an angle to minimize the impact on traffic for NW 39 Street.

Additional improvements may be required at time of permitting.

This land may require platting in accordance with Chapter 28 of the Miami-Dade County Code. Any road dedications and improvements required will be accomplished thru the recording of a plat.

This project meets traffic concurrency because it lies within the urban infill area where traffic concurrency does not apply.

Raul A Pino, P.L.S.

11-MAY-12

Memorandum

Date: 16-FEB-12
To: , Director
Department of Sustainability, Planning and Economic Enhancement
From: William W. Bryson, Fire Chief.
Miami-Dade Fire Rescue Department
Subject: Z2012000006

Fire Prevention Unit:

No objection.

Service Impact/Demand

Development for the above Z2012000006
located at 2500 NW 39 ST & 2501 NW 38 ST, MIAMI-DADE COUNTY, FLORIDA.
in Police Grid 1019 is proposed as the following:

N/A	dwelling units	N/A	square feet
residential		industrial	
N/A	square feet	N/A	square feet
Office		institutional	
N/A	square feet	N/A	square feet
Retail		nursing home/hospitals	

Based on this development information, estimated service impact is: N/A alarms-annually.
The estimated average travel time is: 6:17 minutes

Existing services

The Fire station responding to an alarm in the proposed development will be:

Station 2 - Model Cities - 6460 NW 27 Avenue
Rescue, BLS 65' Aerial, Battalion 5

Planned Service Expansions:

The following stations/units are planned in the vicinity of this development:

None.

Fire Planning Additional Comments

Not applicable to service impact analysis.

For information regarding the aforementioned comments, please contact the Miami-Dade Fire Rescue
Department Planning Section at 786-331-4540.

Memorandum

Date: February 27, 2012

To: Jack Osterholt, Interim Director
Sustainability, Planning and Economic Enhancement

From: Maria I. Nardi, Chief *M.I.N.*
Planning and Research Division
Parks, Recreation and Open Spaces

Subject: Z2012000006: INNER CITY PROPERTY DEVELOPMENT AND GOLDEN SANDS
DEVELOPMENT CORP

Application Name: INNER CITY PROPERTY DEVELOPMENT AND GOLDEN SANDS
DEVELOPMENT CORP

Project Location: The site is located at the 2500 NW 39 ST & 2501 NW 38 ST, Miami-Dade County.

Proposed Development: The applicant is requesting a non use variance of parking, setback, landscaping of an office/warehouse facility.

Impact and demand: This application does not generate any residential population, and therefore the CDMP Open Space Spatial Standards do not apply.

We have no comments concerning impact or demand on existing County parks, proposed or budgeted service expansion, nor do we perform a concurrency review.

If you need additional information or clarification on this matter, please contact John Bowers at (305) 755-5447.

This map was prepared using Miami-Dade County's (MDC) Geographic Information System (GIS). As is the case with all public records information, the nature of the data and the collection processes limit the ability of any aggregator to independently validate data and content. Every effort has been made to ensure that the information represented is accurate, however, the results cannot be guaranteed. In order to ensure the accuracy of the information supplied by MDC, the requestor should consult the official government record. Based on these limitations, MDC is unable to guarantee the accuracy of the information represented. Employees or agents disclaim all warranties, expressed or implied, as to any matter whatsoever and shall not be responsible for any loss or damage that may directly or indirectly arise as the result of use of information contained in the County's GIS.

Memorandum

MIAMI-DADE
COUNTY

Date: August 23, 2010

To: Marc C. LaFerrier, AICP, Director
Department of Planning and Zoning - 3

From: Jack Kardys, Director
Park and Recreation Department

Subject: Blanket Concurrency Approval for Local Recreation Open Space

RECEIVED
SEP - 2 2010
PLANNING & ZONING
METROPOLITAN PLANNING SECT
Asst. Director Planning

Subrat
Mark W
SCANNED

This memorandum updates the blanket concurrency approval memo of October 1, 2009. There is an adequate level of service within each of the three Park Benefit Districts for all unincorporated areas, as shown on the attached table, and we project that there will be sufficient surplus capacity to maintain an adequate level of service for one additional year. Nevertheless, on a case-by-case basis, this Department will additionally evaluate the capacity of existing parks to support projected residential populations created by new development.

This approval is valid until September 30, 2011. If conditions change prior to that, I will inform Helen Brown, Concurrency Administrator of your department.

Memorandum

MIAMI-DADE
COUNTY

Date: September 30, 2010

To: Marc. C. LaFerrier, A.I.C.P., Director, Department of Planning and Zoning

From: Kathleen Woods-Richardson, Director, Department of Solid Waste Management

Subject: Solid Waste Disposal Concurrency Determination

The Department of Solid Waste Management determines compliance with the County's adopted level-of-service (LOS) standard for solid waste disposal based on the ability of the County Solid Waste Management System (System) to accommodate projected waste flows for concurrency. Only those System facilities that are constructed or subject to a binding executed contract for the provision of services are included in this determination, in accordance with Chapter 33G of the Miami-Dade County Code, Service Concurrency Management Program.

The attached spreadsheet presents the projected utilization of the System's remaining disposal capacity over a period of ten (10) years. The projection is based on the demand generated by those parties (municipalities and private haulers) who have committed their waste flows to the System through interlocal agreements, long term contracts and anticipated non-committed waste flows, in accordance with the LOS standard. The analysis shows adequate System capacity to meet the LOS through Fiscal Year 2015-16 or one (1) year beyond the minimum standard (five years capacity). This determination is contingent upon the continued ability of the County and its disposal service contract provider to obtain and renew disposal facility operating permits from the applicable federal, state and local regulatory agencies. Therefore, please be advised that the current LOS is adequate to issue development orders. This determination shall remain in effect for a period of one (1) fiscal year (ending September 30, 2011), at which time a new determination will be issued. If, however, a significant event occurs that substantially alters the projection, the Department will issue an updated determination.

ANNUAL DISPOSAL RATE (in tons)

RESOURCES RECOVERY ASHFILL	137,000
SOUTH DADE LANDFILL	149,000
NORTH DADE LANDFILL	231,000
WMI CONTRACT	250,000
TOTAL TO BE LANDFILLED	767,000

* Ashfill capacity for Cell 19 (Cell 20 is not included). When Cell 19 is depleted Resources Recovery Plant Ash and Okeetanta Ash will go to South Dade Landfill and WMI until further cells are constructed.

** South Dade includes Cells 3 and 4 (Cell 5 is not included). Assumes unders from Resources Recovery consumes capacity whether or not it is used as cover.

*** North Dade capacity represents buildout of the facility. When North Dade Landfill capacity is depleted, trash goes to South Dade Landfill and WMI.

**** Maximum Contractual Tonnage per year to WMI is 500,000 tons. 250,000 tons to the Medley Landfill and 250,000 tons to the Pompano Landfill in Broward County. WMI disposal contract ends September 30, 2015.

All beginning capacity figures are derived from the Capacity of Miami-Dade County Landfills draft report prepared by the Malcolm Pirnie based on the actual July, 2010, survey with actual tons from July 2009 through June, 2010, and projected tons for August and September, 2010.

Memorandum

Date: September 15, 2010

To: Marc C. La Ferrier, Director
Department of Planning and Zoning

From: Harpal S. Kapoor, Director
Miami-Dade Transit

Subject: FY09 Blanket Concurrency Approval for Transit

Miami-Dade Transit (MDT) has been charged with the responsibility of reviewing and approving concurrency applications for mass transit levels of service as stated in County Ordinance 89-66, Administrative Order 4-85, and Section 33-G of the Miami-Dade County Code. Based on the latest socio-economic information provided by your department's Research Division, and a review of the June 2010 Metrobus/Metrorail service area we find that MDT meets or exceeds the Level-of-Service Standards (LOS) for mass transit established in the above-referenced County Rules and Regulations for most areas of Miami-Dade County with the exception of partial alignment segments of the following five routes:

- Route 24 alignment - 40-minute headway - the segment along SW 26th Street (Coral Way) from SW 137th Avenue to SW 153rd Court.
- Route 54 alignment - 40-minute headway - performing a turn around loop that encompasses the following segments: along NW 82nd Avenue, from NW 170th Street to NW 186th Street (Miami Gardens Drive); the segment west along NW 186th Street (Miami Gardens Drive) from NW 82nd Avenue to NW 87th Avenue; the segment north along NW 87th Avenue from NW 186th Street (Miami Gardens Drive) to NW 192nd Street; the segment east on NW 192nd Street from NW 87th Avenue to NW 82nd Avenue, and to complete the loop, the segment on NW 82nd Avenue from NW 192nd Street south to NW 186th Street (Miami Gardens Drive).
- Route 56 alignment - 60-minute headway - the segment along SW 107th Avenue from SW 56th Street (Miller Road) south to SW 72nd Street (Sunset Drive) and the segment along SW 117th Avenue from SW 72nd Street (Sunset Drive) south to SW 104th Street (Killian Parkway).
- Route 136 alignment - 50-minute headway - most of the route segments west of the South Miami-Dade Busway are not in compliance. These segments include the following: along SW 104th Street (Killian Parkway) from the South Miami-Dade Busway west to SW 87th Avenue; along SW 87th Avenue from SW 104th Street (Killian Parkway) south to SW 128th Street; along SW 128th Street from SW 87th Avenue to SW 92nd Avenue; the segment from SW 92nd Avenue making a half loop, going east on to SW 129th Terrace to SW 89th Place and then south to SW 136th Street; the segment along SW 136th Street from SW 89th Place west

to SW 107th Avenue; the segment along SW 107th Avenue from SW 136th Street to SW 128th Street; the segment along SW 128th Street from SW 107th Avenue to SW 117th Avenue; the segment along SW 120 Street from SW 117th Avenue to SW 147th Avenue; the segment along SW 147th Avenue from SW 120th Street north to SW 112th Street; and, the segment along SW 112th Street from SW 147th Avenue east to SW 137th Avenue.

- Route 252 alignment - 40-minute headway – The segment west of SW 152nd Avenue, along SW 152nd Street from SW 152nd Avenue west to SW 162nd Avenue; then performing a loop around going north on SW 162nd Avenue to SW 144th Street and east on SW 144th Street to SW 160th Avenue and back south on SW 160th Avenue to SW 152nd Street.

There are other segments of Routes not meeting the 30-minute peak headway; however, their alignment is intertwined with other Routes, therefore meeting the concurrency level for those segments.

This memo serves to re-authorize your department to review and approve concurrency applications in all areas of Miami-Dade County with the exception of those five areas mentioned above, where the routes do not meet the 30-minute headway concurrency threshold.

This authorization is intended to continue the arrangement between our respective Departments, and is effective for the period October 1, 2010 to September 30, 2011, or until canceled by written notice from my office.

If your staff needs further information or assistance with mass transit concurrency matters, they may wish to contact Maria Batista, Principal Planner in our Department. Your continued cooperation on these important matters is greatly appreciated.

cc: Susanna Guzmán-Arean
Maria C. Batista

Memorandum

MIAMI-DADE
COUNTY

Date: April 21, 2005

To: Alberto J. Torres, Assistant Director for Zoning
Department of Planning and Zoning

From: Manuel C. Mena, Chief
MDFR Fire Prevention Division

Subject: Concurrency Approval

Subject to compliance with Article XIV a. "Water Supply for Fire Suppression" of the Miami-Dade County Code, blanket approval for "Initial Development Orders" for any proposed use is hereby granted until further notice.

A subsequent review to assess compliance with Miami-Dade County Fire Flow Standards addressed under the concurrency requirements, as stated in Chapter 163, part 2. Florida Statute, will be necessary during the building permit process.

When zoning use variances are permitted the fire flow standards for the zone permitting the use will be applied
